## SECTION I      GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

### PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Scio Central School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

4. Ensuring the completion and yearly update of building-level emergency response plans for each school building.<sup>13</sup> The CEO will require each building principal to maintain a Building-level Emergency Response Plan in compliance with Commissioner of Education Regulation 155.17(2). Each plan should be updated annually with the assistance of the Building Emergency Response Team (BERT). The plan shall provide for lockdown, lockout, sheltering, evacuation, early dismissal, fire and other emergency planning and notification (when necessary) to students and staff, annual drills and exercises, and coordination with local and county emergency preparedness administrators. **EARLY DISMISSAL DRILL<sup>36</sup>:** The District will conduct an Early Dismissal drill annually wherein students are dismissed no more than 15 minutes before the normal dismissal time. Parents will be notified of these drills at least one week prior. Transportation Officials and District staff may also take place in conducting and evaluation of this drill. This drill also allows the District to test the usefulness of the communications and transportation system during emergencies.<sup>37</sup>

**SHELTER-IN-PLACE AND/OR LOCKOUT DRILLS:** While not required, each school in the District may conduct Shelter-in-Place and/or Lockout drills in addition to those drills required by New York State regulation. The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding the effectiveness of these drills.

In addition to post-drill debriefings conducted by each building-level emergency response team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.<sup>38</sup>

Each Building-level Emergency Response Team and representatives of the District administration engage in tabletop exercises facilitated by the district's emergency management consultant. Emergency response agencies are encouraged to participate in these exercises. The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills. The school board will ensure that information about drills be provided in the teacher's manual or handbook.<sup>39</sup>

---

<sup>34</sup> EL §807.1-a at least two additional drills must be held during summer school in buildings where summer school is conducted, one must be held during the first week of summer school.

<sup>37</sup> 155.17(h)(2) Such drills shall test the usefulness of the communications and transportation system during emergencies.

A summary of drill procedures are detailed in the Building-Level Emergency Response Plan. Parents will be notified of drills in accordance with NYS Regulations.<sup>40</sup>

#### STAFF DEVELOPMENT TRAINING:

All general staff will receive training on District-wide procedures as well as specific procedures contained within their respective building-level emergency response plan. This training shall occur prior to September 15<sup>th</sup> of each school year or within 30 days of joining the district. This training will be conducted at a staff development day in August, online or a combination of both.<sup>41</sup>

The District will provide advanced training for the Building-level Emergency Response Team (BERT) and District-wide Safety Team annually. The training will include practices and procedures to educate, evaluate, update and review all Emergency management protocols and procedures the teams perform including, but not limited to Lockdown, Lockout, Evacuation, Shelter-In-Place, and Early Dismissal. The District may involve local emergency responders to participate in this training.

Additional training includes but is not limited to:

- De-escalation training
- Warning signals for violence and mental health concerns
- Non-violent conflict resolution
- Student School Emergency Response Procedures Training

#### PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All schools have greeters or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principal is responsible for supervision of the greeters and other staff.

---

<sup>40</sup> 155.17(c)1(xiv) procedures for review and the conduct of drills [and other exercises to test components of the emergency response plan, including the use of] tabletop exercises, and information about emergency procedures and drills, including information about procedures and timeframes for notification of parents or persons in parental relation regarding drills and other emergency response training(s) that include students.

<sup>41</sup> 155.17(c)1(xiii) policies and procedures for annual multi-hazard school safety training for staff and students, provided that the district must certify to the commissioner that all staff have undergone annual training by September 15, 2016 and each subsequent September 15th thereafter on the building-level emergency response plan which must include components on violence prevention and mental health, provided further that new employees hired after the start of the school year shall receive such training within 30 days of hire or as part of the district’s existing new hire training program, whichever is sooner;

3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in and wear visitor identification.
5. Visitor access is limited to specific areas of the school building.

#### VITAL EDUCATIONAL INFORMATION<sup>42</sup>

Information on each student and staff member, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

#### EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR<sup>43</sup>

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A “plain language” summary of the District’s Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.
2. A “plain language” summary of the District’s Code of Conduct is provided in the student handbook and on the school website for all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians, and students may be involved in this process.

---

<sup>42</sup> 155.17(h)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

<sup>43</sup> 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, persons in parental relations to students of the school district or board, students and other persons deemed appropriate to receive such information;

5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.
7. Each of the District's school psychologists/counselors may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District may offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

### Police Agencies

The District buildings fall within the jurisdiction of the following police departments:

Each school will identify and locate areas of potential emergencies in and around its building. The Director of Facilities and building custodians will locate these sites.

1. These sites are to include electrical, gas, heating, ventilation, water supply and sewage systems locations and shut-off valves. Local fire department personnel have and will continue to participate in these efforts.
2. These sites of potential emergencies will be listed in each Building-level Emergency Response Plan supplied to police, fire, emergency management services, and District personnel.

3. Potentially dangerous sites indicated below that are contained within school property and under the jurisdiction of the school district, will be checked regularly and inspected by building safety personnel on a regular schedule, at least annually. They include but are not limited to:

## SCHOOL SAFETY PERSONNEL ALLOCATIONS, HIRING, DUTIES, AND TRAINING<sup>44</sup>

### SECURITY ALLOCATIONS

There is a single point of entry for visitors at each building and visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter. Staff in the building all wear district-produced identification badges which must be worn at all times. Staff are trained to report to the main office any person they observe who is not wearing a badge. Middle School and High School instructional staff are expected to be present in the hallways between classes to supervise during the transitions.

## SECTION III RESPONSE

### NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

#### Internal

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

#### External

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: [www.sciotigers.org](http://www.sciotigers.org)

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

### SITUATIONAL RESPONSES

#### MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific

response procedures are sensitive in nature and therefore are contained within the confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.<sup>45</sup>

## RESPONSE PROTOCOLS

Written information on emergency response procedures is disseminated to parents, age-appropriate students and staff via email by October 1st annually. This non-sensitive information may also be found on the district website.

## RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE<sup>47</sup>

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.
2. Staff members are required to immediately inform the Principal or their designee of any direct or implied threat of violence or actual act of violence by students, teachers, or other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or their designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. The district disseminates educational material, including but not limited to emails and formal brochure, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.
4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct. Chronic offenders may require a behavior plan or contract, close monitoring, and/or police involvement-

## RESPONSES TO ACTS OF VIOLENCE<sup>48</sup>

1. The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations may also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level team, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in the building-level emergency plan. The use of the District's mass communication system is typically utilized.
6. Aggressively dangerous and violent students, staff or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.
7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.<sup>49</sup>
10. The district has a zero-tolerance policy for acts of school violence.

## PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

### BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

*Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.*

### PROTOCOLS

1. In the event of a state-ordered reduction of the District's in-person workforce, the following is a list of **essential** employees.

2. In the event of a state-ordered reduction of the District’s in-person workforce the District will provide the opportunity for all **non-essential** employees the capability to telecommute including, but not limited to, facilitating or requesting the procurement, distribution, downloading, and installation of any needed devices or technology, including software, data, office laptops or phones, and the transferring of office phone lines to work or personal cell phones as practicable or applicable to the workplace. Scio Central School District Staff will be guided on this as per the **Building Level Emergency Plans**, specifically the **Continuity of Operations and Continuity of Instruction** sections.

3. To the extent possible the District will stagger work shifts of essential employees in order to reduce overcrowding on public transportation systems and at worksites. Staff and students typically walk or drive via personal vehicle to campus. In an effort to reduce overcrowding on upon arrival and dismissal, the following will be considered:
  - Class schedules, if scheduled to be on site, will be staggered to a morning and afternoon cohort
  - Staff will arrive on campus prior to students at staggered times/work shift or/and staggered assigned days of work
  - If no students are in school staff will continue to have their work shift or assigned days of work staggered.

  - Storage of personal protective equipment will be on campus and comply with the manufacturer's storage recommendations for each item.
  - The equipment will be stored and readily available to any person in need of it.
  
5. In the event an employee is exposed to a known case of a communicable disease that is the subject of a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, and in order to prevent the spread or contraction of such disease in the workplace the District has a set protocol to be followed for the exposure as well as the disinfecting of the affected work area(s). The District's **Building Level Emergency Plan** contains an **Infectious Disease Annex, section 25** which details:
  - The disinfecting of any area known or suspected to be infected with the communicable disease as well as any common area surface and shared equipment such employee may have touched
  - Available leave options, for the affected employee(s), in the event of an employee's need to receive testing, treatment, isolation, or quarantine

*Note: Such protocol does not involve any action that would violate any existing federal, state, or local law, including sick leave or health information privacy.*
  
6. All essential employees will have their hours and work locations documented, including off-site visits, by:
  - All entrances will be locked.

- All employees will use their access cards for entrance which documents their arrival on the premises.
- Payroll, attendance, and time cards will further document an employee's presence on campus.
- No other visitors will be allowed on site.

Such protocol shall be designed only to aid in the tracking of the disease and to identify the population of exposed employees in order to facilitate the provision of any benefits which may be available to certain employees on that basis.

If there is a declared state disaster emergency involving a communicable disease that involves the Scio Central School District, all staff, essential and non-essential, will be contacted, and they will be guided by the aforementioned protocols.

7. **OTHER:** Any other requirements determined by the Department of Health such as contact tracing, testing, physical distancing, hygiene, disinfecting, drill modifications, or mask-wearing.

#### IDENTIFICATION OF DISTRICT RESOURCES WHICH MAY BE AVAILABLE FOR USE DURING AN EMERGENCY<sup>50</sup>

## COORDINATION AND SCHOOL DISTRICT RESOURCES AND MANPOWER DURING EMERGENCIES<sup>51</sup>

The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol, that quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The Superintendent or their designee will call in all available maintenance and custodial staff to provide support during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

## EMERGENCY REMOTE INSTRUCTION

### OVERVIEW

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.

The standard communication methods will be as follows:

Grades PK-3: Class Dojo; Zoom

Grades 4-12: Microsoft TEAMS, Outlook email

### COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in remote instruction. No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner. The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

All students in grades PreK-2 will be issued an iPad. All students in grades 3-12 will be issued a laptop. Students in grades 5-12 will be expected to take their device home daily. In the event of an extended closure (more than 2 days), devices to students in grades PreK-4 will be coordinated through pick-up and delivery options.

### MINIMUM INSTRUCTION HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.
